DDW-81

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--26 September 1984

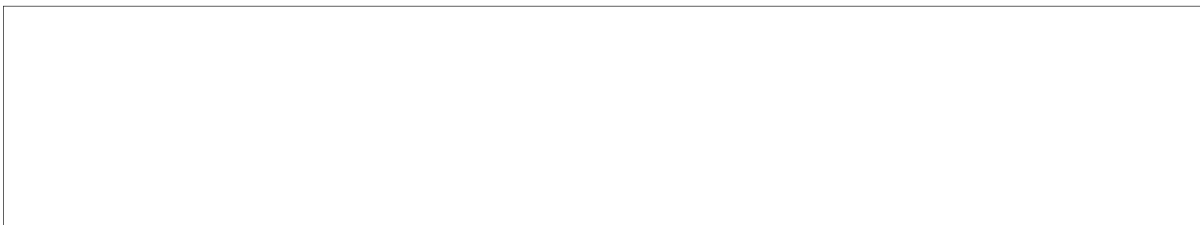

CIPC Organizational Activities

- The initial meeting of the CIPC CBW Subcommittee was held on 21 September. [ ] reported that he was pleased with the progress made at the meeting, but was disappointed that CIA was not in attendance. 25X1
  - The working group reviewed and discussed the draft TOR and provided several recommendations.
  - [ ] assigned several actions to the working group members. 25X1
  - The working group will meet again on 11 October to complete their TOR for CIPC approval (minutes attached).
- Although CIA may take exception to some of our study recommendations (specificity), it appears that the studies are producing results. Attached is a copy of CIA FY 86 budget request for narcotics. It contains a request for several new positions--DDI, DDO, and DDS&T--and [ ] 25X1
  - [ ] 25X1
- I had a good meeting with the DDS&T Career Development Course on 25 September. The group was very interested in the CIPC and what we are doing and have accomplished--the allotted one-hour was not enough for them. Although this group was somewhat older and had more CIA experience than previous classes, they were very naive in the role of the ICS and Intelligence Community.
- Processing of [ ] continues to go forward. General Williams has formally approved [ ] for CIPC staff duty and a memorandum to this effect and [ ] availability date is being drafted advising us of this. 25X1

25X1

Mobile Missile Study: 

25X1

- During this week the Mobile Missile Panel held its usual two meetings:

25X1

- Also during the week,  prepared a briefing for the Air Force Scientific Advisory Board (AFSAB) meeting on Monday, 24 September. The AFSAB is looking for a summary of what we have done so far and what our plans are for the near future, since they will be studying our report closely to see what they can use in their own study effort.

25X1

Terrorism: 

25X1

- Terry Arnold has invited  to the State Department to meet Terry's successor, Ambassador Parker Borg. Ambassador Borg has just taken over as Deputy Director for Security Policies and Programs, Office for Combatting Terrorism.  is scheduled to meet with him at 1500 on Friday.
- Tuesday's Washington Post reports a State Department request for "372 million dollars in emergency funds to improve security throughout the world..." We have learned from Terry Arnold in State's Office for Combatting Terrorism that request includes 205 positions, \$178 million for salary and expenses, \$176 million for acquisition and operation of buildings, and \$10 million for funding of the rewards program. No money for intelligence was included.

25X1

25X1

25X1

TOP SECRET

- We have a strawman Terrorism Study. [ ] Chairman, Terrorism Working Group, is meeting with us at 1000 on 27 September to discuss our goals and objective of the study and to develop plans for working group and CIPC review and approval of the draft study.

25X1

China Study: [ ]

25X1

- The working group report has been further revised to accommodate comments offered by CIPC management. The goals are to meld the executive summary section from the proposed [ ] annex thoroughly within the report itself, to temper NIO/EA (and, presumably, CIA) objections over a pair of recommendations by modifying the language and reorganizing the order in which the recommendations are presented, and to generally tighten the prose in the forward portions of the report. Subsequently, we will meet with appropriate CIA officials, including the NIO/EA and NIO/SP, to review these revisions.

25X1

25X1

Anti-Ballistic Missile Study: [ ]

25X1

- While awaiting inputs from NFIC members on the BMD report, an editorial scrub has been accomplished. Barring any substantive responses which require more than minor changes, the report will be ready to go to print as soon as final approval is received. General Stilwell's office called and indicated they have no problems with the report. Several of the NFIC members requested an extension of their suspense date.
  - Additionally, we have queried NSA on the status of the Perry Panel interim report, and it is nearing final draft.

Narcotics Activities: [ ]

25X1

25X1

25X1

- [ ] also attended the NIO/Narcotics monthly Warning and Forecast Meeting on 20 September. The principal highlights of the discussion included:
  - A representative from DIA/DC-4, Human Assessments Branch, in attendance for the first time.
  - A strong consensus that when they return after elections, the various Congressional committees concerned with narcotics intelligence will focus almost exclusively on the sharp increase in cocaine availability in the US.

25X1

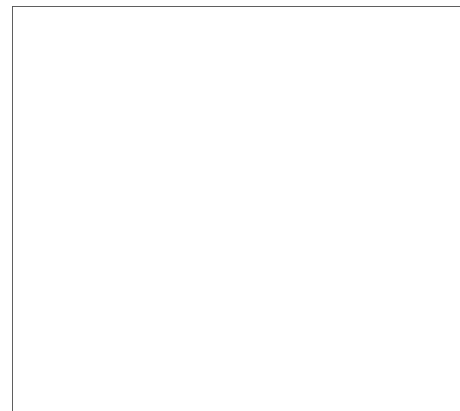

25X1

Miscellaneous:

- The first meeting of the NSDD-121 Arms Control Initiatives Senior Steering Panel was held Tuesday, 25 September. [ ] provided support as the Vice Chairman of the original Community Working Group which developed a package of initiatives to provide some degree of enhanced ability to monitor current and proposed arms control treaty provisions. The purpose of Tuesday's meeting was to scrub a list of potential initiatives and come up with a package that the DCI can include in the FY86. These initiatives will identify ongoing activities in addition to new initiatives that could be implemented if more money were available (with an attempt also to quantify what degree of enhancement that extra money might provide).

**DRAFT**

## MEMORANDUM FOR THE RECORD

SUBJECT: Minutes of the First CIPC CBW Subcommittee Meeting [ ]

25X1

1. The initial meeting of the CIPC CBW Subcommittee was held on 21 September 1984 at [ ] The meeting was chaired by [ ] a list of attendees is at Attachment 1. [ ]

25X1

25X1

2. The Chairman opened the meeting with a discussion of the background leading to the formation of the Subcommittee and of its objectives for the 6-12 months of its proposed existence. The question of ACDA representation was raised; the members concurred that associate membership in the Subcommittee should be provided to a representative of ACDA. [ ]

25X1

3. A major topic of discussion was the relationship between the CIPC CBW Subcommittee and the existing CBW groups (the WSSIC CBW Working Group or CBW/Toxin Use, and the HUMINT Committee's Special CBW Working Group).

a. The Chairman emphasized that these three groups should remain in existence until DCI approval of the Terms of Reference for the CIPC CBW Subcommittee, and that a transition plan should be developed with each of these groups for the orderly transfer of appropriate activities.

b. It was noted by the Subcommittee members that there are significant differences between substantive/operational concerns and management/organizational concerns. The Subcommittee must be aware of what needs to be done in each area.

c. The Navy representative highlighted the potential value of a committee approach to operational matters, citing instances in which committee backing of an ad hoc collection requirement resulted in more "clout" for the requirement. (The members noted that a committee was not a prerequisite for submission of such requirements.) It was noted that an "operational committee" also provided the opportunity for a useful information exchange. [ ]

25X1

25X1

~~SECRET~~

## DRAFT

4. The Army representative tabled a draft Terms of Reference (TOR) for the Subcommittee's review. The Executive Secretary outlined some concerns of the CIPC staff, and recommended deletion of paragraph 3b. The DIA representative requested instead that paragraph 3b be revised to reflect that the Subcommittee Chairman will be selected from the DoD Intelligence Community. The Army representative will incorporate these and other proposed changes and will also rework paragraph 1 of the TOR to include all the recommendations of the CIPC CBW Report. He will then forward a revised draft of the TOR to Subcommittee members for their review. [redacted]

25X1

### 5. Tasks:

a. [redacted] will revise the draft TOR and will forward the revision to the Subcommittee members. Their comments are due to [redacted] NLT 3 October 1984.

25X1

25X1

b. [redacted] will prepare a list of the ongoing activities of the WSSIC CBW Group, to include a copy of its charter, its international agreement responsibilities, its international point of contact, etc.

25X1

c. [redacted] will prepare comparable lists for the Toxin Use Group and HUMINT Committee's CBW SWG.

25X1

d. [redacted] will assemble manyear and dollar figures FY 1986 and outyears) from the appropriate programs.

25X1

e. [redacted] will survey the members to identify collection and processing shortfalls within their agencies. [redacted]

25X1

25X1

6. The next meeting of the CIPC CBW Subcommittee will be held at 1000 hours on 10 October 1984 at [redacted] The Subcommittee will meet every other Wednesday morning (0930-1200 hours after 10 October meeting) from that time forward unless otherwise notified. [redacted]
